The Healthier You Are, The Happier You Are

POLLYANNA

SPA & BIO CERAMICS COLLECTION (F.I.R. Textile & Negative Ion Products)

The Healthier You Are, The Happier You Are

SPA & BIO CERAMICS COLLECTION (F. I. R. Textile & Negative Ion Products)

Pollyanna offers a very innovative range of FIR (Far Infrared Ray & Negative Ion) fashion wear for Men and Women.

- It uses the latest technology combining a special **Spa & Bio- Ceramics**.
- Coated on the normal fabric & the wearer enjoys the nature's gift

Benefits of using Pollyanna Fashion Wears on Human Body

- Great help to thermo-regulate the temperature of the body in all seasons, cool in summer & warm in winter
- Improve oxygen level in body, blood circulation & metabolism
- Balance natural immune system & activates water molecules in our body

Pollyanna products

- Design for Comfort Fit, Luxury & Well-Being
- Assures the wearer the perfect image & pride, which is vital for social status

The Healthier You Are, The Happier You Are

Bio-Ceramic

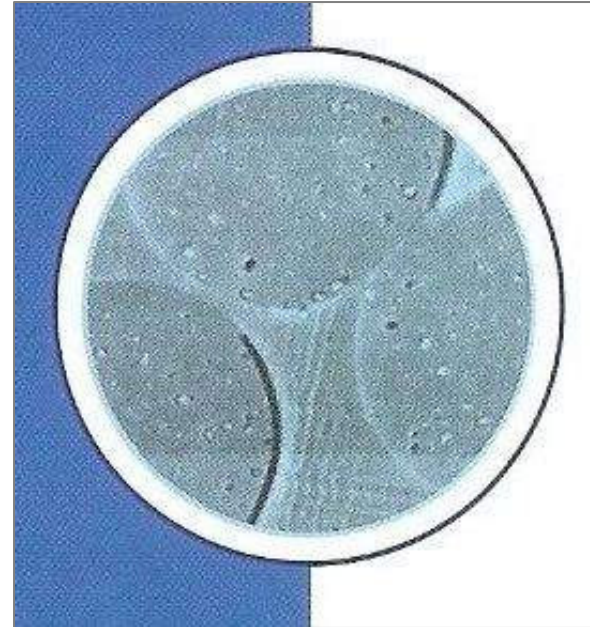

- In our daily life, we use ceramics. They are made of clay & burnt in oxidizing components.
- Scientific research show that ceramics emit very strong Far Infrared Rays (FIR) during high heat.
- This is the reason why food tastes better & medicine is made more effective when being cooked or boiled in ceramic cooker.
- Normal ceramics produce FIR with a long wavelength of 0.3 – 1000 micron, which is not absorbed by human body.
- More than 20 ceramic and various mineral oxides mixed & preheated to 1600 degree Celsius to make into fine powder and being shaped into a variety of bioceramics and negative ion products radiating 13 M wave length rays as the original one we receive from the mother nature.

Bio-Ceramic

➤ Human body need to absorb in 4 – 16 microns which only Bio-ceramics, also known as Biochemistry ceramics can do it. It's a technological breakthrough that benefits human body.

SECRET Bio Chitosan Salt is one of the Pollyanna Spa & Bio Ceramic Collection.

Bio Chitosan Salt is made of natural salt, SPA & Bio Ceramics, Chitosan Royal Jelly, Honey and Egg whites etc.

Far-infrared Ray (General Features)

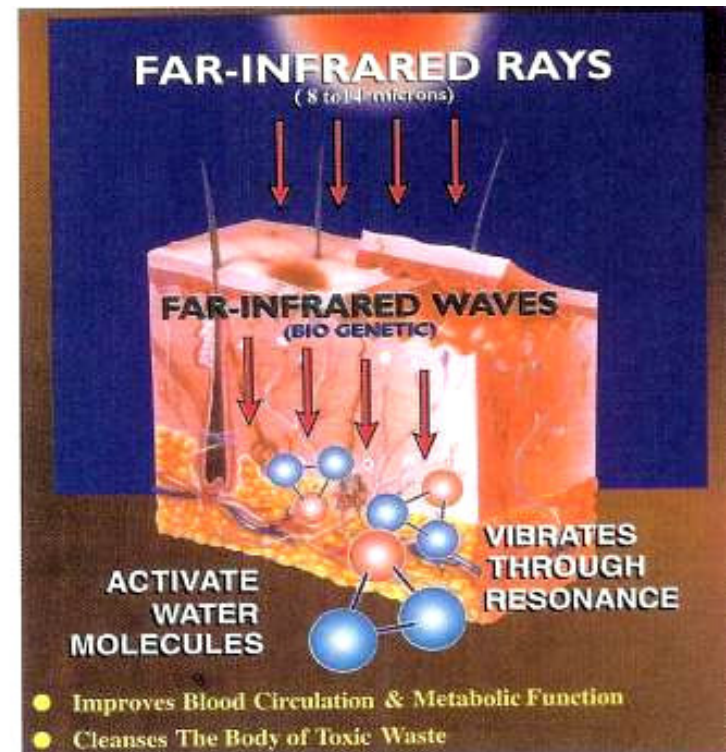

- FIR is a longest wavelength among the light, whose spectrum (4-16 micron) is most beneficial for human body.
- This beneficial ray vitalizes the Biological function of human body and has mysterious action of heat balancing, ripening action, intellectual, drying, neutralizing & resonance.
- The rays not only benefits the skin and muscles but all cells including blood vessels, lymph & sweat glands and nerves as well.
- When it comes to contact with the molecules of water and protein, it begins to shake the cells 2000 times a minute.
- This enables the cells to activate and prevent all kinds of diseases by increasing the blood circulation, metabolism, relieving chronic fatigue and by reducing aches and pains.
- It further benefits by improving blood circulation, removing toxins, burning calories, relieving pain and improves immune system.

The Healthier You Are, The Happier You Are

Far-infrared Ray (General Features)

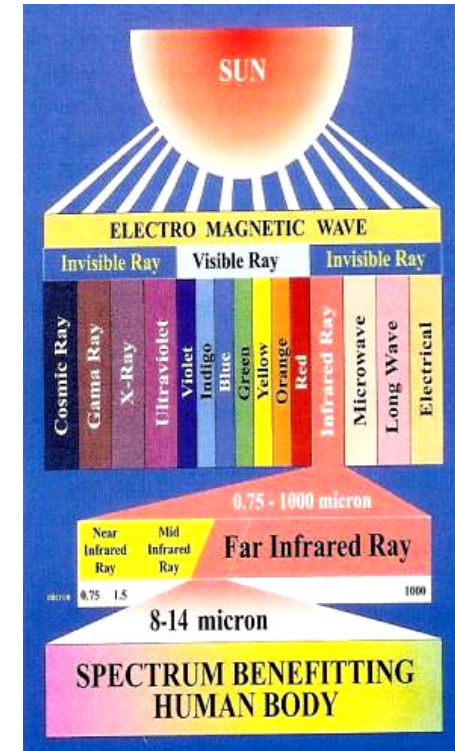

- This ray is easily absorbed by human body reaching as far as 4-5 cm into body. It helps in all aspects of bodily growth & development in both human body & living creatures.
- Also causes a warm effect and travel in straight lines.

Six Major effects of Far-infrared Rays

1. Increase the growth of immature/retarded children or teenagers (Ripening action).
2. Keeping the nutrient balance of calcium & iron elements within the body (Intellectual action).
3. Keeping the proper level of moisture that maintain the body temperature (Drying action).
4. Extracts the waste materials thereby neutralizing the sweat and bad smell (Neutralizing action)
5. Raises the temperature when the body temperature lowers, lowers the temperature when the body temperature rises (Heat balancing action).
6. Dissolves the nutrient elements of the fat, protein, carbohydrate and then keeping the balance of nutrition. Also by resonating the atoms and particles of cells, resulting to keep the body strong (Resonance action).

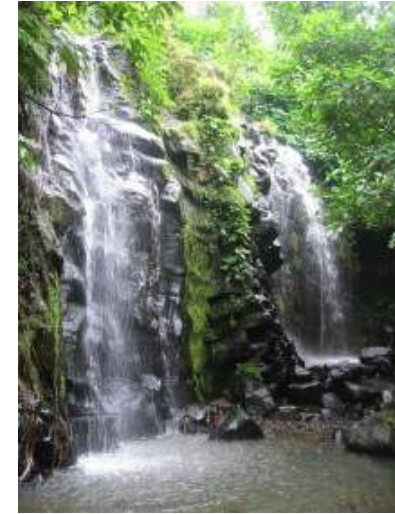

Negative Ion

Negative Ion is referred as “Vitamins in the air” like breathing in Fresh air near of waterfall.

It helps neutralize acidity & raise alkalinity.

It enables greatly the cells being in the normal function of absorption of nutrition and elimination of waste materials in our body.

Five Major effects of Negative Ion

1. Purification action of blood :

The negative ions purify the blood by increasing the number of ion rates of five (5) elements of oxygen, nitrogen, calcium, sodium & potassium within the blood and by raising alkalinity it enhances the immune system.

2. Restoration action of cell :

The human body is made of about six (6) trillion cells, among which the cells with more negative ions of alkali state keep moving actively. As a result, the activities of muscles, particularly the cardiac muscles moves fast and it keeps our heart in healthy condition.

The Healthier You Are, The Happier You Are

Five Major effects of Negative Ion

3. **Increase reinforcement of the immune system of our bodies against diseases :**

The gamma globulin is a kind of protein contained in the blood serum, and becomes increasing within our body if the number of the minus ions become increasing acting as the antibody with the immunity from diseases. Therefore keeping our body in the healthy condition.

4. **Control action of autonomic nerve :**

The autonomic nerve automatically controls all of human body organs without regard to the intention of humans. The quantities of minus ions make the autonomic nerves controlled benefit our body/feelings. This action strengthens the function of nerves system, cells, lymph and other organs, making your body feel energetic for any activities.

5. **Alleviating action of cells under pains**

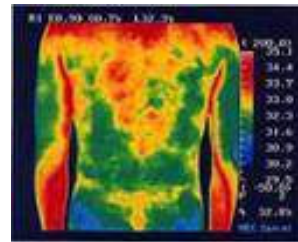

The minus ions have the number of ionized calcium increased, and generated the element materials of endorphin and encoring, thereby having us recovered from fatigues, strengthening our body, keeping cells under pain into healthy cells and alleviating the pains.

OTHER BENEFITS OF FAR INFRARED RAYS & NEGATIVE IONS

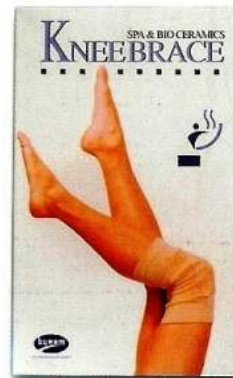

Improve perspiration system	Improve strength and health
Prevention of bacteria growth	Speed up repair of body cells
Softening of hard water	Balance of blood cholesterol
Relieving of Pain	Prevent mold
Purification of water	Maintain warmth and better sleep
Eliminates bad odor	Enhance and maintain freshness
Purification of air	Help plants to grow better
